This was followed by an eleven-year tenure at Amazon.com in Luxembourg (2012-2023), with three different positions of responsibility for Amazon's European consumer business.

His experience in matters of management and strategic decisions works in a complementary way and contributes to the collective suitability of the Board of Directors by offering goodwill in the examination and implementation of the Group's strategic goals.

**Allocating sufficient time**

Judging from the professional and other obligations of the candidate, we conclude that there is no possibility that he cannot adequately perform his duties and responsibilities as an executive member of the Board of Directors. We therefore conclude that Mr. Deligiannis meets the criteria of the Suitability Policy concerning the members of the Board of Directors of the Company.

**2. Establishment of collective eligibility criteria.**

Although the composition of the current Board of Directors already meets the criteria of Law 4706/2020 in terms of form and substance, although Mr. Mangioros resignation as a non- executive BoD member it is desirable to staff the Board of Directors with additional executive members. The completion of the Board of Directors with the candidate is considered to add value to the operation of the Board of Directors, especially in matters of administration, organization and strategic development. His significant experience in various areas, from distribution and production to sales and e-commerce, makes him ideal to contribute to the development of the company.

The candidate's exceptional education background combined with work experience in Greece and abroad render him a considerable addition to the Company's BoD.

Based on the above, the addition of Mr. Deligiannis to the Board of Directors seems to contribute significantly to the development, management, and achievement of the Group's strategic goals.
